

Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application:

1. (Currently Amended) A combination LED flashlight and garage door opener transmitter, comprising:

- a. a housing adapted to hold a battery;
- b. at least one battery disposed inside said housing;
- c. at least one ~~1.5 volt~~ LED located in said housing; and used as a flashlight to illuminate a nearby surface or object;
- d. a voltage multiplier circuit coupled between said LED and said battery, said voltage multiplier circuit includes a synchronous boost converter that automatically adjusts and maintains the output voltage from said battery to continuously activate said LED as the internal voltage of said battery decreases;
- e. an ON-OFF switch electrically connected to between said battery and said LED;
- f. a garage door opener transmitter electrically connected to said battery; and
- g. a garage door function switch connected to said garage door opener transmitter.

2. (Currently Amended) The combination flashlight and garage door opener as recited in Claim 1, wherein said synchronous boost converter is capable of supplying 3.3 volts at 150 MA.

3. (Original) The combination LED flashlight and garage door opener transmitter as recited in Claim 1, where said battery supplies 1.5 volts.

1 4. (Original) The combination LED flashlight and garage door opener transmitter as
2 recited in Claim 1, wherein said flashlight includes two LED's.

3
4 5. (Original) The combination LED flashlight and garage door opener transmitter as
5 recited in Claim 1, further including a key ring attached to said housing.

6
7 6. (Original) The combination LED flashlight and garage door opener transmitter as
8 recited in Claim 1, further including a lens located around said LED.

9
10 7. (Original) The combination LED flashlight and garage door opener transmitter as
11 recited in Claim 6, further including a reflector located inside said lens and disposed around
12 said LED.

13
14 8. (Original) The combination LED flashlight and garage door opener transmitter as
15 recited in Claim 1, wherein said housing is watertight.
